1.2 Platform Description & RAG Workflow

Zeltrionix provides automated AI-powered support agent infrastructure. Our platform processes uploaded business documentation (PDF, DOCX, TXT, CSV) to construct vector embeddings for Retrieval-Augmented Generation (RAG). AI agents answer end-user queries strictly based on provided context.

- **Free Trial:** New accounts receive a initial trial balance of 10,000 AI tokens.
- **Paid Plans:** PRO Plan (€30/mo, 50,000,000 tokens/mo) and ENTERPRISE Plan (€100/mo, 175,000,000 tokens/mo).
- **Token Top-Ups:** Additional token top-up packages (e.g. €0.60 per 1,000,000 tokens) can be purchased on demand and do not expire while account is active.

1.4 Knowledge Base Ownership & Anti-Hallucination

Customers retain 100% intellectual property ownership of all uploaded documentation. Zeltrionix AI agents operate under a strict anti-hallucination policy: when information is missing from the knowledge base, agents will direct users to human support.

2. Privacy Policy & Data Security

2.1 Data Collection Scope

Zeltrionix collects necessary account metadata (name, email, encrypted passwords), uploaded training documents, and chat interaction logs required for providing AI agent responses.

■ ZERO PUBLIC MODEL TRAINING GUARANTEE:

Your uploaded documentation and customer chat interaction logs are NEVER shared, sold, or used to train public foundation models (OpenAI, DeepSeek, Anthropic). Your knowledge base data is strictly isolated within your private account workspace.

In accordance with European Union GDPR standards, users retain the right to access, export, or permanently erase their personal data and uploaded vector datasets at any time by contacting privacy@zeltrionix.com.
